- Restyling an A-Line skirt with Embroidery

Fabric, Patterns and Sewing Supplies are found on:

I always enjoy discovering new ways to design fabric and reverse applique is a fun and fashionable one!

The process is very simple and can be done on fabric before you sew a project or when restyling:

- 2 fabrics are needed – make sure they are similar in weight
- Choose a simple embroidery design that has at least two layers like the flower shown here
- Embroider the design with a thread color that coordinates with the top layer of fabric
- Cut the outside layer of fabric within the design
- Brush the raw edges or throw the fabric in the wash and dryer to curl up the edges
