

Terrial Arts Fascinator

By Terry McFeely

This fun [Terrial Arts](#) fascinator can be so fabulous in so many different color-ways and fabrics! Peacock feathers were very popular in the 20's, so I selected fabrics using these colors for the flapper fascinator on the It's Sew Easy! PBS television show.

Materials needed:

- [Terrial Arts Calla Lily flower pattern](#)
- [Fascinator Pattern](#) (free download)
- 1" rhinestone or pearl button
- 19" piping
- 4 feathers (1 art feather and 3 feathers different ascending lengths)
- 7" x 14" fascinator cap fabric piece
- 6" x 8" calla lily body fabric piece
- 10" x 4" leaf and sash fabric piece
- 2" x 3" Spandex (center stem) fabric piece

Construction:

1. Treat all fabrics (except Spandex fabric) with [Terrial Magic](#), a liquid fabric stabilizer, to give the fabric a stiffer hand and to keep it from fraying. Treating fabric is simple! Just spray it on until the fabric is saturated, line dry until damp then finish drying by using an iron to press it.
2. Cap and Piping: Download the [FREE Fascinator pattern](#) and instructions. Cut the cap out of treated fabric. Add piping and sew the cap. Follow the instructions for making the calla lily stem.
3. Calla Lily & Leaf - Follow the pattern instructions to cut & sew Calla Lily and leaf.
4. Finishing: Now the fun part! First bend the flower to shape with the cap. Glue it down along the flower backside and stem. Glue the leaf face down on top of the flower. Bend the leaf away to the right.
5. Feathers: Glue the first (art feather) sticking straight up, then the longest feather angled to the left a bit. Continue gluing feathers in ascending order, fanning to the left. Glue a button at feather base to finish it off.
